Role: [PHP/Laravel Sr. Developer](#)

Additional info:

[Available to move.](#)

[I love to work with:](#) [Linux](#), [PHP](#), [Laravel](#), [Vue JS](#) or related technologies.

[About me](#)

My name is Tiago França.

I'm a programmer and programming teacher.

I have worked with IT since 2009. With programming since 2013.

I have worked in several areas of IT as a network infrastructure analyst, network security analyst and head of migration of systems with physical networks to public, private and hybrid clouds.

My main technologies are **PHP**, **Laravel**, **Linux**, **PostgreSQL** and **Vue JS**.

I have been working with Laravel since 2017 and with it I have created systems for different niches, for companies of different sizes.

Laravel is my main framework and the one I specialize in. Even with Laravel as the main framework, I have no problems working with my own systems and/or even with other frameworks.

Main technologies:

- PHP
- Laravel
- GIT
- Aut. Tests: PHPUnit e Jest
- OAuth/JWT
- TDD / Unit Test
- Vue JS
- Node JS
- Alpine JS
- Typescript
- SQL: PostgreSQL, MySQL/MariaDB
- AWS: EC2, RDS, SNS, S3, EKS, Lambda
- Linux/Unix
- ORM
- Docker
- Redis
- SRE & DevOps mindset
- MongoDB

Work History

F2 Sistemas e Ensino (Nov 2023 - Now)

Main position: Technical Lead/Senior Developer

Secondary position: Programming teacher

Responsibilities:

- Development of internal tools and for the company's customers.

- Building a API connecting to GitHub, Google and YouTube in PHP(Laravel)
- Build dashboard application in Voyager for Laravel and hosted in sefl server

Technologies: PHP, Laravel, Redis, Linux, Shell Script, External APIs, JavaScript, Docker, AWS, NodeJS

Education

System for Web Services - UNIFCV
2021 - 2024

Graduating in Information of Systems on Estácio de Sá University
2017 - 2021

Languages

Portuguese/BR (native)
English (B1)

Certificates, courses & qualification

PHP (Udemy, SENAI, PROLab Courses, and other institutions)
Laravel (Udemy)

Linux/Unix (SENAI, Casa Brasil)
HTML5 (Udemy, PROLab Courses)
JavaScript (Udemy, PROLab Courses)

CSS3 (PROLab Courses)

Shell Script (Linux Courses)

Skills

PHP
Laravel
GIT
Object-Oriented Programming (OOP)
Model-View-Controller (MVC)
VueJS
Unix/Linux
Shell script
AWS RDS/EC2/Lambda
SQL PostgreSQL/MySQL

Redis
JavaScript
NextJS/ReactJS
HTML5
LEMP (Nginx and PHP stack)
LAMP (Apache and PHP stack)
SQL
CSS3
Bootstrap
Microsoft Windows/Server
VueJS
React
NodeJS
AWS
Javascript
MongoDB
Cloud computing
Webservices
Rest API
TDD
WebSocket
Angular2/AngularJS
PHP Symfony
Elastic Search
