Professional Summary

Senior Backend Engineer with 10+ years of experience designing and delivering API-first systems in cloud environments.

Specialized in Laravel and modern backend architectures, I build scalable, high-performance systems focused on maintainability, integration, and long-term sustainability. My expertise includes PostgreSQL optimization, containerized deployments, CI/CD pipelines, and AWS-based infrastructure.

I have extensive experience working in SaaS environments, integrating third-party services, designing RESTful APIs (including hypermedia-driven approaches when appropriate), and refactoring legacy systems into maintainable and scalable architectures.

Beyond implementation, I actively contribute to architectural decisions, performance improvements, and technical mentorship within development teams.

Core Competencies

- API-first architecture and contract-driven RESTful services
- Scalable backend systems in cloud-native environments
- Database performance tuning and complex query optimization
- Refactoring and modernization of legacy systems
- Integration with external APIs and distributed services
- Containerized deployments and CI/CD pipelines
- Clean architecture, SOLID principles, and engineering best practices

Technical Skills

Backend & API Architecture

- PHP (10+ years)
- Laravel (8+ years)
- RESTful API design (HATEOAS-aware when applicable)
- API versioning and backward compatibility strategies
- Node.js
- TypeScript
- OAuth2, JWT

Databases & Performance

- PostgreSQL
- MySQL / MariaDB
- Redis
- MongoDB
- Complex query analysis and optimization

Cloud & Infrastructure

- Linux (13+ years)
- Docker
- Shell scripting
- AWS (EC2, RDS, S3, Lambda)
- GitHub Actions / CI/CD
- Cloud-oriented deployment strategies

Frontend Integration

- Vue.js
- Nuxt 3 / Nuxt 4
- TailwindCSS
- API-driven frontend architecture

Testing & Quality

- PHPUnit
- Jest
- Unit and integration testing
- Practical TDD experience

Professional Experience

F2 Sistemas

Senior Backend Engineer & Technical Consultant

Nov 2023 - Present

- Designed and implemented scalable Laravel-based API-first systems deployed in cloud environments

- Acted in consultative roles during critical production scenarios, diagnosing architectural bottlenecks and improving system stability
 - Analyzed and optimized complex database queries to enhance performance and reduce latency
 - Refactored legacy applications into modular and maintainable architectures
 - Established clean architecture standards and best practices across projects
 - Integrated third-party services and external APIs in distributed system environments
-

Grupo GPS

Senior Backend Developer

Jun 2023 - Nov 2023

- Modernized strategic internal systems using Laravel and API-driven architecture
 - Developed and maintained RESTful APIs supporting business-critical operations
 - Improved infrastructure organization and deployment workflows
 - Optimized database performance and application responsiveness
-

Só Carrão

Backend Developer

Jan 2023 - May 2023

- Developed Laravel-based backend services integrated with AWS infrastructure
 - Structured APIs for scalability and maintainability
 - Improved system performance and optimized backend operations
-

Pontomais

Senior PHP Backend Developer

Sep 2019 - Oct 2022

- Developed critical backend features for a SaaS workforce management platform
 - Implemented complex business rules and financial calculations
 - Integrated external APIs and third-party services
 - Participated in architectural decisions and performance improvement initiatives
 - Refactored legacy modules to improve system maintainability and scalability
-

Superprof Brazil

Programming Instructor

2019 - Present

- Mentored developers in backend engineering and Laravel architecture
 - Provided practical training in PHP, Linux, Docker, and API-driven systems
 - Guided students on clean architecture and production-ready development practices
-

Education

Internet Systems - UniFCV (2021-2024)

Information Systems - Estácio de Sá (2017-2021)

Certifications & Courses

- PHP - Udemy, SENAI, PROLab
 - Laravel - Udemy
 - Linux / Unix - SENAI, Casa Brasil
 - Shell Scripting - Linux Cursos
-

Languages

- **Portuguese:** Native
- **English:** Professional working proficiency (technical communication)
